Summary

Hi I'm a software engineer with 4+ years of experience in front-end development, current tech stack is: TypeScript, React.

Worked in 3 software companies on different project stages: requirements analysis, UI and product design, choosing tech stack, architecture design, and software development.

Skills

- | | | | | |
|------------------|---------------|------------|----------------|-------------|
| ✓ Javascript | ✓ Typescript | ✓ React.js | ✓ Redux / MobX | ✓ Next.js |
| ✓ Webpack | ✓ ES6+ | ✓ Babel | ✓ Leaflet.js | ✓ Cesium.js |
| ✓ Design pattern | ✓ OOP | ✓ Rest-API | ✓ Graph-QL | ✓ Git |
| ✓ Cypress | ✓ Material-UI | ✓ HTML | ✓ CSS | ✓ SASS |

Experience

Frontend Developer | *March 2019 - Present*

SHARIF HAMRAH PAZHOHAN

- Implemented performance optimization strategies for adding large amounts of data to the leaflet map container.
- Utilized Cesium's APIs to integrate geospatial data layers and create dynamic visualizations for geospatial applications.
- Optimized performance of 3D rendering and interactions for smooth user experience across various devices.
- Participated in the planning and execution of sprints, ensuring timely delivery of high-quality code.
- Conducted code reviews to maintain code quality and adherence to coding standards.

Frontend Developer | *December 2020 - December 2021*

HIMART (*Mihan Industrial Group*)

- Leveraged Webpack's `TreeShakingPlugin` to eliminate unused code within modules, resulting in a 20% reduction in bundle size and a 15% improvement in initial load time.
- Implemented dynamic imports and React's `Suspense` component to lazily load feature-specific code, enabling users to interact with core functionalities quickly while non-essential features download in the background.
- Implemented strategies for filtering and sorting shops in near area.

Frontend Developer | *September 2021 - December 2021*

DADE KAVAN | **ANDISHE BARTAR**

- Successfully led the redesign of food ordering process resulting improve user engagement.

Education

Bachelor of Science: **Software Engineering** | *2016 - 2020*

Sadra University, Tehran
